RE: 150 Newport Center Drive (PA-2014-213)

Dear Mayor Dixon and Council Members:

SPON and LITS (Line in the Sand PAC) partnered to circulate a petition to Newport Beach voters. In less than a month, we have gathered 1,489 signatures requesting that City Council uphold the Planning Commission's recommendation to deny the 150 Newport Center Project for the reasons noted below.

- This project is inappropriate for its location with regard to height, bulk and use.
- It requires a major amendment to the General Plan to add development WITHOUT a public vote.
- It would tower above its neighboring buildings and create a "New York" style density, look and feel.
- Approval of a residential building in proximity to restaurants, bars and theaters will result in conflicts over noise and other nuisances caused by patrons, cars and deliveries at all hours
- This project would create a dangerous precedent for dense residential development in a low-intensity commercial part of Newport Center.

The voter-approved 2006 General Plan laid out a rational blueprint for the development of Newport Center. All of the development allowed under the 2006 General Plan has been built. This project inappropriately uses spot zoning and makes an end run around a zoning process that puts limits on size and bulk.

The 150 Newport Center project requires planning commissioners and council members, who are tasked to enforce our voter-approved General Plan, to authorize a major General Plan Amendment for this project to proceed.

Our city has reached the tipping point with regard to massive developments such as this project. Your vote determines whether Newport Beach looks like Laguna Beach or like Los Angeles.

8/23/2016 18:33:55	92625	I'm in favor of living by the Plan, that is our General Plan, passed just 10 years ago. If we aren't going to abide by the Plan, why do we bother doing them. I know the current Planning Commission did not have much, if anything, to do with the approval of 'The Prison' in the northwest corner of Newport Center, but that has not even come on line yet, so we don't know the real impact it will have on traffic in the City. But that pretty much used up all the available residential space in Newport Center that was anticipated by the General Plan. Let's not do anything to violate the GP until we can at least evaluate the impact of the already approved and soon-to-be occupied residential units in Newport Center.
8/23/2016 18:34:10	92625	Bad precedent violates General plan and opens the door to turning commercial areas into residential areas with traffic and other pollution.

8/23/2016 18:59:06	92625	Please vote NO on this project. Let the location either remain a car wash or have a new facility that is in harmony with the rest of Newport Center. This proposed 150 residential building is way out of line!

The voters do not want to have to resort to a referendum to stop something that should never be approved in the first place. Please vote against this proposed project.

8/24/2016 1:33:30	92625	This is an important issue that the Planning Commission and City Council should vote against. The citizens of Newport Beach told you where they stand when they approved the 2006 General Plan. You must honor the will of the people and vote no against The 150 Newport Center project.
8/24/2016 5:39:45	92625	The density in this section of Newport Beach is already changing for the worse the atmosphere of NB.

8/24/2016 7:55:17	92625	
8/24/2016 8:00:19	92625	Please follow the General Plan and maintain what beach town character we have left! This is Newport Beach, not Manhattan!

8/24/2016 9:58:45	92625	This project is simply incompatible with all other structures and buildings currently contiguous to the proposal in Newport Center. Must we have 150% building coverage on every lot and unbuilt piece of land in the city before you're happy? Newport Beach voters spoke loud and clear about high density residential in Newport Center in the last election. What does it take to convince you of the residents wants and needs? Please listen to the majority of Newport Beach residents. We don't want this project. Period.
8/24/2016 10:10:27	92625	No to building 150 units. It is getting way too crowded here.
8/24/2016 10:12:07	92625	
8/24/2016 10:18:22	92625	Thank you for making this a priority. I am happy to sign. Please send this also to dansalceda@cox.net
8/24/2016 10:21:38	92625	Please don't build.
8/24/2016 10:27:53	92625	I vote NO; am strongly opposed to this development
		I have lived in Newport Beach (Balboa Island and CdM) for nearly 40 years. What has always appealed to me was its unmistakably suburban character, with spacious, low-rise development -- whether retail, commercial or residential -- and refreshing, breathable open space. Please keep denser, more vertical projects under strict and careful control; they are detrimental to the charm of our city and the established quality of life. I don't think anyone chooses to live here longing for Newport to be converted into an L.A.
		I've seen the plans for 150 Newport Center and feel it would create too much volume for that site. Additionally, if this proposed project requires an amendment to our carefully crafted General Plan, the very appropriateness of the project should be questioned.
		I hope you will not approve it, even at the reduced 55-foot height.
8/24/2016 10:44:58	92625	Thank you for protecting our interests.
8/24/2016 10:46:30	92625	
8/24/2016 10:48:53	92625	I am very opposed to this development.
8/24/2016 10:49:53	92625	
8/24/2016 11:00:47	92625	I believe the available residential unit quota for Newport Center is already overallocated and further residential building would violate the General Plan.
8/24/2016 11:02:10	92625	
8/24/2016 11:11:40	92625	We are a beach community. High rise buildings belong in downtown Los Angeles not Newport Beach . We do not have road surface for more cars, we do not have water to provide, we do not have schools or police for more people.
8/24/2016 11:18:01	92625	
8/24/2016 11:32:40	92625	I hope that you are also opposing the proposed building of the HUGE condo project where the Museum now sits. That really makes no sense. The traffic in Corona Del Mar and Newport Beach is already at critical mass ! Thank you.
8/24/2016 12:00:09	92625	What are they, crazy? The community will have enough trouble trying to absorb the monstrosity on San Joaquin Hills at Jamboree. Make your reservations for your birthday or anniversary now at your fave restaurant, because you'll never get in otherwise!!

8/25/2016 13:10:29	92625	.
8/25/2016 14:24:08	92625	Too many essential service businesses are lost because of contractors offering more money to build larger buildings which are inappropriate to the location and do no fit in with the area. Much of the charm ,character and identity of the entire area is lost because of the height and density of these buildings. Instead of being Newport Center we become similar to LA, Irvine , or any other large city.

8/26/2016 10:40:39	92625	We've been Newport Beach residents since 1998, and are deeply disturbed by the attempts to increase local density and destroy the character of our community.
8/26/2016 10:46:54	92625	Too much traffic as it is now.

8/26/2016 14:40:07	92625	
8/26/2016 15:34:18	92625	Once again, the Planning Commission is being asked to approve a project from Tod Ridgeway which is particularly offensive to the overwhelming majority of Newport Beach residents. His nearly vacant retail center (two years after completion) on the corner of Dover and PCH is a prime example of development without real benefits. Why the City would even consider allowing his ilk to replace a car wash at 150 Newport Center Drive with a gargantuan high rise is beyond ludicrous. Any amendment of the General Plan to change the land use category for this small parcel from Regional Commercial Office to Multi-Unit Residential is incomprehensible. We don't need 141,013 square feet of gross floor area for 45 condominiums to replace an 8500 square foot car wash, and we don't want it. Proposed exterior landscaping won't hide this massive structure, and only calls to mind the fallacy that putting lipstick on a pig is a viable option. We don't need any more condos in Newport Center, and most certainly not this megast

		We are NOT downtown Los Angeles, San Francisco or San Diego. If we need to have high rise buildings, let's put them by the SNA Airport, which is a commercial area. Newport Beach is a low-rise, residential community. Once you approve this building and/or the Museum condo project, you open the door to future high rises in our neighborhood. Obviously, more people are going to increase traffic and water usage. I'm always amazed when the environmental reports come back that there is 'no significant impact'. (of course there is!) I plead with you, NOT to approve both these developments. Can't the developers compromise and go smaller? I know the Museum community is trying to get maximum dollars out of the property to fund their new museum by OCPAC, but PLEASE, not at our community's expense! We've lived here almost 50 years, raised our families here, and this makes me very sad to see these high rises reminiscent of large metropolitan areas (which we are not!). Thank you for listening.

8/29/2016 11:40:10	92625	<p>Of course we dont want the density we see in LA. My concern is that Fashion Island is beginning to become as repugnant as visually repugnant as the drive down Jamboree going north. The density of the condos/apts on San Joaquin and Jamboree is SO horrific. That may be far worse than this high rise. But the high rise is just one more element that degrades our community.</p> <p>Instead of being so focused on profit, might Donald Bren and the Irvine Co. show some concern for our environment? How about supporting efforts to decrease the 100 million people we are adding to the planet every year? And all these people want access to energy resources that means consumption of fossil fuels. How about putting solar on those visually horrible new condos to reduce pollution. If this high rise gets approval how about, at the minimum. putting solar on the roof? How about supporting efforts to increase gov't subsidies for solar and wind? Oil and gas receive billions in subsidies but the cleaner energy resources do not. The Irvucture. y "Light Runners" we can find. The addition of any residential high-rises around Fashion Island will only increase the density of people and traffic and it's scary to think City Officials can try and convince the residents of Newport Beach otherwise. End the Development!5</p>

9/7/2016 11:36	92625	The people of this community have already voted on the General Plan. The City Council's attempt to circumvent the law is shameful.
9/7/2016 11:41	92625	We have let Newport become too dense and our resources are being spread too thin. We need to keep our city special so that it remains exclusive as our home pricing reflects. A resort destination is more in line with what the city vision seemed to always strive to become. A far cry from the sleepy beach town of the past. We definitely do not want to become densely populated like Irvine.
9/7/2016 12:55	92625	I'm very much in favor of no growth in NEWPORT BEACH! I live in Irvine Terrace and traffic is already too contested!
9/7/2016 14:03	92625	Proposed development @ 150 Newport Center Drive fails to provide a positive addition for our city and the environment.

9/18/2016 12:05	92625	Letting this high -density development happen is unconscionable.
9/18/2016 12:14	92625	A resounding NO to this inappropriate high-density construction in our wonderful city which we should be ensuring is kept beautiful.
9/18/2016 21:03	92625	I am totally opposed to any more high density developments in Newport Beach.
9/19/2016 14:58	92625	Parking and traffic would be a nightmare during office hours if this would pass

8/23/2016 22:05:31	92657	
8/23/2016 22:31:50	92657	Definitely inappropriate for location.
8/24/2016 6:26:42	92657	Traffic is already at a stand still. The stress on public services will be far more expensive than the revenue the city thinks it will get. The only difference between the new dense housing that is already being built in Fashion Island and an inner city ghetto is money.
8/24/2016 8:13:17	92657	
8/24/2016 8:29:39	92657	
8/24/2016 9:06:42	92657	There is already too much high density building in the Fashion Island area. No one understands the impact because it is all still in process. So no one from this project could have studied or projected anything well. VOTE NO!

8/25/2016 12:33:21	92657	Mixed use of commercial and residential is a flawed idea and has to be stopped. Have you ever seen anybody walk to work. I can't imagine a lady toting two bags of groceries from Whole Foods to her condo in Newport Center let alone all the noise of a commercial center. In addition it would violate height restrictions and could block views of the ocean. This concept needs to be stopped in its tracks throughout the city so it maintains its position as a destination city like Paris, London and New York.
8/25/2016 15:29:46	92657	Newport Center is busy enough w all the traffic! NO residential high rises.
8/25/2016 16:58:45	92657	
8/25/2016 17:24:24	92657	No more developing. Our peaceful beach town is being destroyed by GREED.

8/26/2016 13:55:07	92657	I do not want this development to go forward because of increased traffic and resulting, irreversible environmental damage.

8/23/2016 17:16:56	92660	Noise pollution, density, visual line of sights, and safety are my primary concerns, not necessarily in that order. We are not Century City. Protect what makes us attractive - lower density means less impact on the environment and the existing population.

8/23/2016 18:28:54	92660	I am against this and all further residential high rises at Newport Center.
8/23/2016 18:33:50	92660	No citizen of Newport Beach that I have talked to wants this project approved --- we want a low density city !!! Why in the world would you change the existing zoning for a project NOBODY wants ?!!!! And
8/23/2016 18:34:04	92660	Give the General Plan a try ... don't change it!
8/23/2016 18:40:50	92660	
8/23/2016 18:42:22	92660	I vote NO on the high density development @ 150 Newport Center Dr. We have too many massive developments already....our beautiful city is on the road to ruin at this pace of growth.

8/23/2016 19:53:05	92660	
8/23/2016 19:59:15	92660	We are already at grid-lock. Enough already, please stop the over building.
8/23/2016 20:14:14	92660	No more development!!
8/23/2016 20:14:27	92660	
8/23/2016 20:28:57	92660	After seeing the huge 500 apartment complex, we need at least a year to measure the traffic impact in Fashion Island, on Jamboree, San Miguel, Avocado and surrounding neighborhoods. Have been resident for 30 years and I vote.
8/23/2016 20:29:05	92660	The project at Jamboree and San Joaquin Hills Rd will highly impact parking and traffic in this area. It a definite NO on this newly proposed project!

8/24/2016 7:38:16	92660	We are overpopulated and flooded with tourists. Driving from my home in eastbluff to balboa island can take 30 min now. Born and raised Newport resident that will be moving along with most locals. Get ready to enjoy a town of tourists and newbies, locals are fed up.
8/24/2016 7:43:01	92660

8/24/2016 8:02:35	92660	We are all asked/required to cut back on water use. In Apartments/Condos there isn't any control over water use. Driving around town has gotten so bad, with all these new projects it's going to even be much worse. "Enough is enough"

8/24/2016 8:32:07	92660	
8/24/2016 8:39:50	92660	What about the Museum House - far more intrusive and visible. If 150 NCD is defeated, won't that permit Museum House to be built because it is not over 100 residential units? Neither of these projects should go forward particularly with the massive condo/apartment developments on San Joaquin - which are making us look more and more like some version of Irvine.
8/24/2016 8:42:10	92660	with the 500+ units being built off Jamboree and San Juaquine, traffic will be very difficult when adding another 1000 cars to the roads We are too small a community to handle the influx of cars that will crowd our streets. Also, the increase of water used will far exceed what is asked of us to maintain. what good is it to reduce our water use when mass apartments are being built around us. It makes me believe that adding residents to newport beach is far more important than trying to maintain our water use. Why should we be conscientious when around us is saying we really do not need to be.
8/24/2016 8:57:59	92660	Please listen !!

8/24/2016 9:10:44	92660	I grew up in Newport/CDM, went to school and consequentially settled on the East Coast, but returned here to Newport in 2009. I couldn't believe the changes and increase in population that had taken place during the time I was away but have witnessed it further spiral out of control in the last seven years and can't believe the lack of foresight and constraint by our City Officials and Planning Commission. The traffic increase alone is maddening! I avoid PCH through CDM when at all possible due to the constant backups and long traffic lights. What used to be a pleasant 10 min. drive with beautiful views from Harbor View Homes to Bayside Dr. through CDM now takes almost twice the amount of time and is far from relaxing and enjoyable. Our area has become so over populated and busy as it is, just take a minute and count how many stop lights you witness not one but several cars running solid red lights, that we are bordering on serious safety issues. It has now become a game for me and my three young kids toucture. y "Light Runners" we can find. The addition of any residential high-rises around Fashion Island will only increase the density of people and traffic and it's scary to think City Officials can try and convince the residents of Newport Beach otherwise. End the Development!

8/24/2016 9:22:43	92660	What are they thinking?????? After the disaster on San Joaquin, 500+ units and they want more? Am I the only person in Newport Beach who is aware of the drought? My plants and lawns are dying and we want to move thousands more people into the area? Seriously?????????? To say nothing of the traffic and congestion.

8/24/2016 10:28:20	92660	Our neighborhood is facing the building of a 5 story Assisted living facility on our property line. Just another contentious project that will continue to lower the quality of life we experience in Newport. The City Council, elected by the support of developers needs to be voted out of office and the back room deal exposed.

8/24/2016 14:07:50	92660	This city council is changing the face of our residential community. Newport Beach should not be a high-rise, high density city.
8/24/2016 14:11:44	92660	
8/24/2016 14:13:19	92660	No more large buildings, residential buildings in Newport Center.

8/24/2016 14:14:02	92660	
8/24/2016 14:19:10	92660	I'm against overly cozy relationship of City of Newport Beach and the Irvine Co. and this project does not benefit the residents of NB. It will add to our traffic and overdevelopment.
8/24/2016 14:22:09	92660	
8/24/2016 14:25:53	92660	
8/24/2016 14:28:14	92660	No more high density development! Traffic and density is already terrible and there already is no parking! We have too much congestion already!
8/24/2016 14:29:32	92660	The traffic is horrendous as it is with all the building going on in Irvine. We don't need to add any more to it. Especially a tall building in Newport Center.
8/24/2016 14:31:40	92660	
8/24/2016 14:34:40	92660	Ruining the character of the community and there is not enough water
8/24/2016 14:35:17	92660	I am opposed to any more large buildings in NB; particularly without being able to water my lawn and having to now waste time on crowded roads, such as MacArthur and Jamboree. Making a left at MacArthur around 5 PM now is such a struggle. Please attend to this petition.
8/24/2016 14:35:54	92660	Ruining the character of the community and there is not enough water
8/24/2016 14:38:52	92660	It is unconscionable and unwarranted to continue to crowd our town; there is no water for these large projects and our roads are now like Century City.
8/24/2016 14:38:53	92660	This will be detrimental to our city.
8/24/2016 14:49:46	92660

8/24/2016 15:08:20	92660	This project is recklessly over-scaled for the situs and location.
8/24/2016 15:11:04	92660	Too big. Too tall and dangerously located for both drivers and pedestrians.

8/24/2016 16:40:29	92660	This charming beach town is becoming a crowded busy and noisy place to live. It appears that the powers that be are too aligned with the developers and their desire for more tax revenue.

8/24/2016 16:52:18	92660	
8/24/2016 16:53:07	92660	when the city (and the state) is mandating water restrictions it seems irresponsible to continue to develop high density housing communities. Further, I'm not sure that the developer/building owner is subject to mello-roos? Who pays for the impact on our community if they're not?

8/24/2016 20:42:24	92660	The sad reality is that irresponsible and remorseless labor unions have saddled ALL cities in CA with growing and un-fundable liabilities. Cities and counties are being asked to bend long standing low/no growth policies in an attempt to fund their growing shortfalls. They have been put in a vise. Developers are promised 30 pieces of silver as these nefarious unions hide in the shadows, afraid of the light of day. Do not go gentle into that good night!

8/24/2016 21:23:38	92660	I sincerely believe Newport Beach should be more aware of the negative impact of overbuilding. Development investment money is valuable, quality of life should be considered equally valuable! 8/24/2016 23:15:46	92660	We don't even have enough water for our own homes and it makes NO sense to add more demand! We also don't have enough parking at the stores nearby. Lets improve Newport Beach not stretch it and pack it frustrating everyone.

8/26/2016 10:01:43	92660	The Voter approved general Plan of 2006 should remain in place as it was executed without being challenged each year. It's a good plan for the quality of life in Newport Beach to remain as could be.
8/26/2016 10:09:17	92660	It is very clear that the majority of Newport Beach residents want our planning commission and city council to stop violating the spirit of green light and stop allowing developments which bring more and more traffic and congestion into our community.

8/28/2016 11:43:31	92660	Newport voted in 2012 to STOP high density development and this high rise proposal is exactly what Newport Beach residents and voters do not want or approve.
8/28/2016 12:07:40	92660	
8/28/2016 12:26:37	92660	This type of development needs to stop. Where is the traffic supposed to go. Has anyone tried to go down Jamboree or MacArthur Blvd PCH lately. Unbelievable that this is even being considered
8/28/2016 12:47:54	92660	NO on 150 Newport Center Project - stop building
8/28/2016 12:55:11	92660	
8/28/2016 12:56:04	92660	
8/28/2016 13:33:44	92660	There has been too much massive high-volume development already in this area over the last few years. The impacts on traffic and safety need to be studied before any more projects like this are even considered. Our quality of life is being diminished by greedy developers.

8/28/2016 18:59:26	92660	We need NO more construction until we see what we have post the hundreds of units at Jamboree and MacArthur...adjacent to Park Newport. We are not Irvine and do not want a corridor on PCH.
8/28/2016 23:55:52	92660

8/29/2016 7:43:51	92660	
8/29/2016 8:13:33	92660	Our roads are not capable of handling huge increases in the volume of traffic. There are FEW arteries with no alternatives between them in many cases and most on the east side.

8/29/2016 9:18:44	92660	I respectfully request that our City Council proceed cautiously on this expansion. The density is already becoming intolerable with the development of the Villa Fashion Island apartments. Traffic just from that project will make ingress and egress a nightmare. And, what about the water?

8/29/2016 9:38:46	92660	
8/29/2016 9:39:18	92660	The rendering on the whole building needs to be displayed over and over. The height of the building will over power all the others in Fashion Island and will bring down to LA into our community.
8/29/2016 9:45:12	92660	The people that are favoring and supporting this project don't care about the negative impact that this monster will have on the Newport Beach community but are just motivated by the income the sale of the property will generate for the new proposed museum in Costa Mesa.
8/29/2016 9:52:27	92660	I vote no on this!

8/29/2016 13:53:26	92660	There has already been TOO MUCH development in Newport Beach. We ARE in a drought you know....plus traffic is way too much, no matter what time of day, and Jamboree especially is a dangerous disaster most of the time with too many cars going way too fast. This building has got to stop!!!!!!!
8/29/2016 13:53:36	92660	Too much traffic for another high-density housing project in this area.

8/29/2016 17:29:04	92660	Agree with petition
8/29/2016 17:35:12	92660	Newport will not be Newport with the addition of so many housing units, cars, water usage, etc. The traffic is already excessive. Jamboree and PCH get very backed up. Please stick with the General Plan and submit all projects that do not meet the General Plan guidelines to the public for a vote.

8/29/2016 17:54:46	92660	
8/29/2016 18:05:22	92660	The development at San Juoquin and Jamboree has really impacted this area. Newport Beach doesn't need anymore of this. Where is the water coming from for all these units, and traffic is already impacted on PCH.
8/29/2016 18:16:59	92660	
8/29/2016 18:18:55	92660	
8/29/2016 18:18:56	92660	Newport Beach, during my lifetime, has greatly changed and the traffic and the population density has become strangling. These new projects can only increase the difficulty of movement , damage the wonderful lifestyle Newport Beach has come to symbolize, and tarnish the image of our wonderful city. These large and towering projects will turn us into a mini New York or LA. Not what people come to Newport Beach to experience .
8/29/2016 18:21:14	92660	Adds to the already crowded city sky line along with crowded road conditions.

8/29/2016 19:38:36	92660	Against this project!
8/29/2016 19:44:09	92660	
8/29/2016 19:47:14	92660	Traffic is already terrible! More drivers are going thru yellow lights that have turned red while just entering the intersection. What about the need for more sewer & transformer capacity, widening streets to accommodate increased traffic, schools, new &/or enlarged, for the children., etc., etc. it is unreasonable to assume that car usage will be less just because the buyers/renters live closer to shopping, especially for seniors & those with children. Air quality is already getting very poor. Cramming more residents into a confined area is Irresponsible & most certainly unwanted. Are those on the Newport Beach Planning Commision, Council members & any others who are in control of building expansion so spineless that they can not stand up to the few whose pockets will be filled at the detriment of the many residents??
8/29/2016 20:12:46	92660	Please do not approve

8/30/2016 10:35:18	92660	With all the new construction currently going on in the Newport Center area, I do not want to lose our community by adding any more condos or apartments in that area. The traffic is already heavy and will only get worse. I have lived in Newport Beach since 1948 when I came here with my parents and siblings. My father was the foreman when Cliff Haven was developed. I lived on Snug Harbor Road until I graduated from Newport Harbor High School in 1960. I have seen Newport Beach, the Peninsula, Corona del Mar, Harbor Ridge, Spyglass Hill, Newport Coast, Jamboree Road (named after the Boy Scout Jamboree which I went to with my family in 1950), the business areas and the airport developments and more. High density living is not why people love Newport Beach. The Irvine Company has done much to make Newport what it is today but they are pushing the envelope. Please do not allow any further high density development in Newport Center.

8/30/2016 11:26:53	92660	I am appalled at the current infill housing under construction on the perimeter of Fashion Island. The ease of shopping, marketing, banking, driving, etc. will be diminished forever once all of those units are occupied!

8/31/2016 10:32	92660	It would be potentially supportive of this initiative to deny the project if someone conducted a postmortem on previous traffic studies related to other developments and found that the traffic studies did not accurately identify new traffic patterns.

8/30/2016 17:36	92662	Where is all this traffic going. Please
8/30/2016 19:31	92662	
9/7/2016 10:18	92662	No on the 150 project!!!
9/8/2016 22:11	92662	Spot zoning and General Plan Amendments would essentially lead to abuses of the 2006 planning documents. The 2006 plan should be adhered to.

8/23/2016 17:14:39	92663	
8/23/2016 17:27:05	92663	Please follow the 2006 voter approved General Plan and zoning rules for this block of Newport Center!
8/23/2016 17:39:35	92663	No more High Density in Newport please

8/23/2016 18:09:58	92663	
8/23/2016 18:11:07	92663	Stick to the General Plan (NOT 'Stick it TO the general plan!') No development without public vote!
8/23/2016 18:16:56	92663	Traffic and water problems are already WAY too severe!
8/23/2016 18:20:45	92663	This project destroys the character of Newport Beach
8/23/2016 18:41:42	92663	
8/23/2016 18:41:43	92663	Please listen to the people who vote! You are expected to listen to us - not a few wealthy donors who expect favors.
8/23/2016 18:47:39	92663	Please do not jeopardize our life style just to accommodate more development. There is already a huge strain on traffic, water, schools, and hospitals in our community. Please do not let greed win out when this project is so far out of the limits of development that the citizens have approved. They should have 10 acres for the size of the development and they don't even have 2.....please be responsible when you vote.

8/23/2016 21:37:15	92663	NO on high density!
8/23/2016 22:05:14	92663	The signs on the freeway keep reminding us that there is a SEVERE WATER SHORTAGE in California. It, therefore, makes no sense to continue building more and more apartments and condominiums. Let us remember that apartments bring more traffic. We have a sufficiency of both apartments and cars. Enough!

Petition to Newport Beach Planning Commission & City Council VOTE NO on High-Density Development @ 150 Newport Center

Dear Newport Beach Planning Commission and City Council:

Please VOTE NO and deny the project currently proposed for 150 Newport Center Drive (the car wash project).

Here's why.

- This project is inappropriate for its location with regard to height, bulk and use.
- It requires a major amendment to the General Plan to add development WITHOUT a public vote.
- It would tower above its neighboring buildings and create a "New York" style density, look and feel.
- Approval of a residential building in proximity to restaurants, bars and theaters will result in conflicts over noise and other nuisances caused by patrons, cars and deliveries at all hours
- This project would create a dangerous precedent for dense residential development in a low-intensity commercial part of Newport Center.

The voter-approved 2006 General Plan laid out a rational blueprint for the development of Newport Center. All of the development allowed under the 2006 General Plan has been built. This project inappropriately uses spot zoning and makes an end run around a zoning process that puts limits on size and bulk.

The 150 Newport Center project requires planning commissioners and council members, who are tasked to enforce our voter-approved General Plan, to authorize a major General Plan Amendment for this project to proceed.

Our city has reached the tipping point with regard to massive developments such as this project. Your vote determines whether Newport Beach looks like Laguna Beach or like Los Angeles.

Please VOTE NO on the 150 Newport Center project.
