Subject: Balboa Peninsula Point Encroachment Program
Date: Tuesday, November 28, 2017 10:44:06 AM

Hi There --

A few of you have asked me for a status update on this program. Here it is:

- 1 -- Staff has completed a contract with Don Schmitz, per the Council's direction.
- 2 -- Mr. Schmitz will be assisting the City in the final preparation of the Coastal Development Permit (CDP) for the encroachment program.
- 3 -- We have previously met informally with Coastal staff on this matter.
- 4 -- We expect to submit that proposal formally to the Coastal Commission by tomorrow, November 29, 2017. The Coastal Commission staff will have 10 working days to determine if the application is complete. Once they deem it complete, they will have 90 days to take it to hearing. However, they usually request and are usually granted a one-year time extension. This does not mean that they will need an entire year, but it could take that long.

Dave Kiff
City Manager
