I think the key would be if Matt Harper is teed up to introduce something or amend something. I would guess that there are a lot of bills out there that could be gutted/amended still.

I was planning on it. Just didn't want to lose this year as an opportunity.

I would like it if you would bring this up at the Monday evening Planning Session. I can tee up a slide. I think it dovetails into both whether we do a GP update (frees up funding if we don't) and Duffy's interest in improving the harbor.

I have talked to Don Schmitz about the overall port plan concept and we likely would use him, but I need to have the Council fully on board with this endeavor overall.

I forgot to ask what the status of the legislative contract is to push the port plan legislation?
